

## Report of Python Training Program for BCA and B.Sc students by

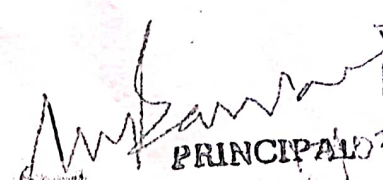

IGSS, Bangalore

Python Training program was organized from 22/01/2020 to 03/02/2020 for BCA and B.Sc students. 38 students from final year BCA and 16 B.Sc (PCM) students participated in the training program. The training program was conducted 3 hours per day for 10 days. Explanation with practicals was conducted in the class held in the computer lab1. Every day during the training the progress of the student was studied and feedback of the day class was collected. The course material was given to all participants including the Faculties. The certificates will be distributed after conducting a test. The faculties of the Computer Science Department and Mathematics Department also attended the training program. The training program is useful to the students of BCA and B.Sc students. This training will be followed by "Internet of Things" training and very useful IOT projects will be conducted.

**About Python:** Python is a general purpose and high level programming language. You can use Python for developing desktop GUI applications, websites and web applications. Also, Python, as a high level programming language, allows you to focus on core functionality of the application by taking care of common programming tasks.

The training was handled by Sri.Krishna, Ms.Niharika, Ms.Jyothi from IGSS, Bengaluru. We thank the Management , Dr.VedaMurthy K.B Academic Director, SJRES, Sri. N.R.Nandish Secretary , SJRES and Principal Prof.M.N.Basavaraju for providing facilities to organize Python training program for our students.
